

# Declaration Of Conformity

## Scope

This declaration is valid to all products made of borosilicate glass SUPRAX 8488®

## REACH Regulation (EU) No. 1907/2006

The REACH Regulation governs the manufacture, import and placing on the market of substances, substances in mixtures and substances in articles.

## Obligation to inform acc. Art. 33 REACH

According to Article 33 REACH, companies are obliged to provide information to their customers if substances of very high concern are contained in the products in a concentration of more than 0.1% by mass. A substance is considered to be of very high concern if it is included on the candidate list (SVHC list) maintained by the European Chemicals Agency (ECHA).

## SUPRAX 8488® Products made by Auer Lighting

According to the REACH regulation glass itself is a non-hazardous substance that is neither currently on the candidate list nor likely to be added to the candidate list in the future. Our products manufactured for you are made entirely out of SUPRAX 8488®. SUPRAX 8488® is a highly resistant borosilicate glass that is not subject to any information requirements according to Art. 33 REACH.

## Coated or printed SUPRAX 8488® Products made by Auer Lighting

No colors and coating materials containing SVHC substances are used for the printing and or coating of our glasses. Therefore, there is no obligation to provide information for our products according to Art. 33 REACH.
