

# LED Cover Glass – BERLIN

## Material

Part name:	LED Cover Glass
Part no.:	1500002
Design:	BERLIN
Substrate:	SUPRAX® 8488 Borosilicate Glass
Dimensions:	240 x 50 x 10 mm

Customs tariff number

70140000

01v00

## Customize it...

Our processing centers offer the following customization options:

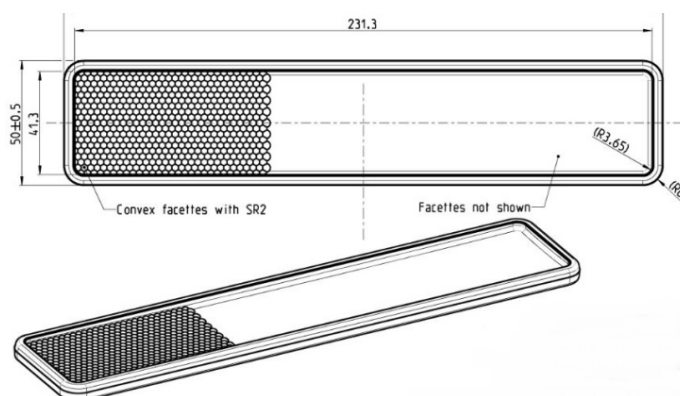

- Individual masking
- Individual geometries & cuts
- Individual polishing & surface finishing

Please send us your drawing via the [contact form](#) or to [Info@auer-lighting.com](mailto:Info@auer-lighting.com).

## Characteristics

Weight:	approx. 173 g
Heat Resistance:	< 400°C
Transmission:	> 85 % (uncoated)
Optical design:	LED beam spots are not visible due to particular optic Special facet design for homogeneous illumination Suitable for linearly arranged LEDs

## Drawing data

## Applications

Creative and sophisticated lighting solutions  
Suitable for linear LEDs  
Architectural lighting
