

## **Use of SUPRAX<sup>®</sup> borosilicate glass in contact with drinking water**

### **Declaration Of Conformity for SUPRAX<sup>®</sup> borosilicate glass in contact with drinking water.**

The manufacture of SUPRAX<sup>®</sup> borosilicate glass is subject to strict and regular monitoring of all batch components and the composition of the molten borosilicate glass. The associated manufacturing and control steps are regulated in writing by work instructions. Internal and external reviews of these regulations are carried out at specified intervals. This is in line with good manufacturing practice and thus complies with Regulation (EC) No. 2023/2006.

**We hereby declare that our SUPRAX<sup>®</sup> borosilicate glass meets the following requirements respectively complies with the applicable regulations:**

- **Section 14 of the German Drinking Water Ordinance (TrinkwV)**
- **Directive (EU) 2020/2184**
- **Positive list of the “Evaluation Criteria Document for enamels and ceramic materials in contact with drinking water”, Version 19**

Tests conducted in accordance with DIN EN 12873-1:2014-09 confirm that the lead and cadmium release is below the legal limits in each case. The batch composition complies with the requirements of the positive list.
